

How to add observed data

1. Open the **Wells** folder in the **Input** pane.
2. Right click on the **Global Observed Data** and choose **import (on selection)**.

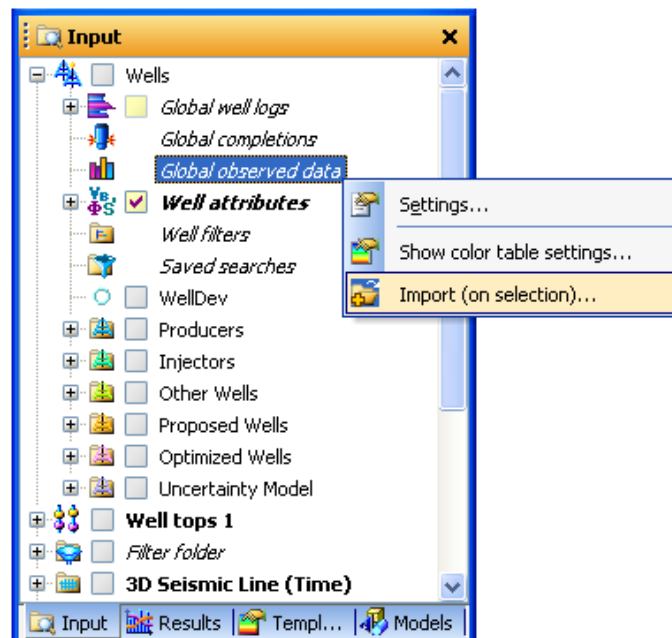

Fig.26.1: Global observed data in the input pane

3. Select the **Global Observed Data** file, and choose the **well observed data {Ascii} {*.vol}** from Files of type.

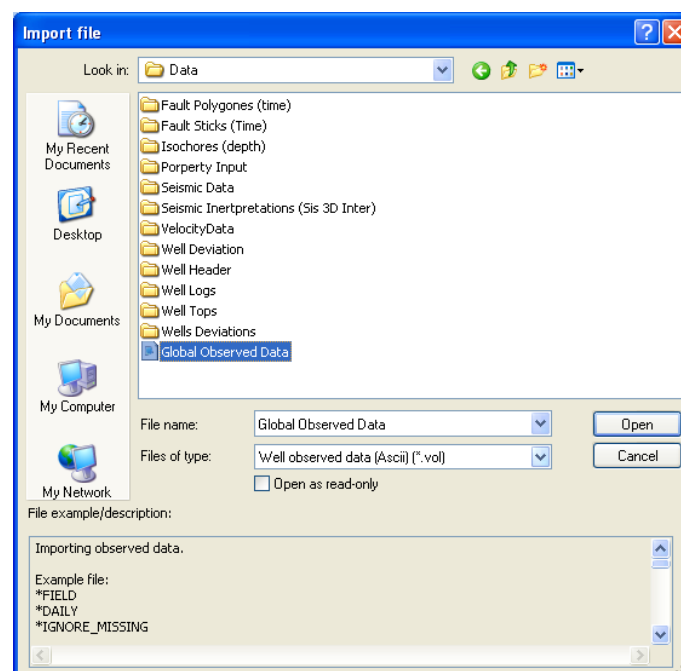

Fig.26.2: import file

4. And press **OK**
